MODULAR DRAWER CABINETS CATALOG

GOING **GREEN** AT LYON

Lyon commits to manufacturing products that help our architects, dealers, and distributors reach the highest level of certification. Buying domestic US steel with recycle content and building products in our centrally located manufacturing plants increases your LEED ratings. Lyon is ready to assist in your LEED certification documentation.

Strengthening our committed to LEED initiatives, Lyon has earned UL GREENGUARD Gold Certification. GREENGUARD recognizes and references over 400 codes, rating systems, and procurement policies worldwide. The GREENGUARD Certification criteria have been the basis for the LEED credit for low emitting furniture since 2002.

The GREENGUARD Gold Standard includes health based criteria for additional chemicals and also requires lower total VOC emissions levels. This ensures that products are acceptable for use in environments such as schools and healthcare facilities.

Certified products are easily identified by the bright green UL badge on each product page. To obtain this certification, Lyon underwent extensive testing and as well as audits conducted by UL Environment.

HIGH DENSITY STORAGE SOLUTION

Maximize your use of cubic space with a high-level of product storage density using Lyon's complete line of modular drawer storage cabinets and accessories. Our main goal, when designing modular drawer cabinets, is to create storage solutions that best optimize space, access, security, and cost with the retrieval of small to mid-sized products in mind.

Drawers can be subdivided into an infinite range of custom compartments to better organize your products. Lyon drawers are ergonomically designed to bring these individual compartments to full view at the best possible human reach points. This results in improved worker efficiency and increased productivity while often doubling storage capacity within the same amount of floor space.

Installations ranging from a single-freestanding cabinet to multiple-stacked groups of cabinets provide flexible solutions to meet every storage requirement while optimizing your space, access, security, and cost. Lyon modular drawer cabinets have been designed for applications in many fields like:

- Manufacturing
- Utilities

- Transportation
- Healthcare

- Government
- Education and more...

Organized Storage

Designed for Efficiency.

Why Choose Lyon Modular Drawer Cabinets...

...to provide you with the highest density storage solution for small to mid-sized products, while reducing your storage footprint by as much as 50%.

PERFORMANCE

The Lyon drawer suspension features the highest quality glides resulting in the “smoothest”, most reliable operating drawers in the industry, empty and fully loaded.

ACCESSIBILITY

Full extension drawers provide 100% visibility to the stored product. Lyon drawers are ergonomically engineered to provide the best possible human reach points.

EFFICIENCY

Drawer interiors can be sub-divided into compartments for the storage of parts without cartons. Neat and organized storage improves inventory control.

SECURITY

Choose from many different types of latching systems to provide for the safe secure storage of valuable products.

MODULARITY

Flexible design based on a “Building-Block” approach. From pre-engineered to custom-built products, Lyon offers an innovative array of easy order options to adapt to your future growth.

NOTE:

With a fully loaded (400 lbs.) drawer capacity, Lyon averaged 8,000 cycles compared to 4,000 competitive cycles before drawer push-pull forces exceeded 50 lbs.

OVERHEAD UNITS

- Provides additional bulk storage above cabinets
- Flat bottom attaches directly to cabinet top below
(Fasteners are included. No drilling)
- Shipped pre-assembled to lower cabinet when ordered together

STEP 1

Choose Overhead Unit size and configuration.

STEP 2

Next specify the housing and drawer colors from the 49 cabinet/drawer-door color combinations below by adding a prefix to the part number.

A	B	D	H	J	K	P
Ash	Wedgewood Blue	Dove Gray	Red Baron	Hunter Green	Vulcan Black	Putty

2a. Enter the **LETTER** designation for the **HOUSING** color

2b. Enter the **LETTER** designation for the **DRAWER** color

STEP 3

Determine locking system. Use either; **N** for No locking system, **L** for standard locking system or **1** for keyed alike when ordered with lower cabinet. Add the locking system digit as a suffix to the part number.

EXAMPLE

The part number for the overhead unit shown is a double unit, 59-5/8" wide in dove gray, multiple drawer access, standard locking system:

Note: Overhead cabinet width must match width of lower cabinet; exception, double overhead cabinets at 59-5/8" wide can be assembled over two (2) standard cabinets which are 30" wide, keep in mind this installation will produce a 3/8" gap on either side of the overhead unit. Field installation only.

SHELF UNITS WITH DOORS

Each unit consists of a base shelf and an adjustable shelf behind a lockable swing door.

Slender, Standard, and Medium units include one lockable swing door.

Extra and Double units include one lockable swing door and one swing door.

• Specify color (add the two (2) letter digit as a prefix to the part number from the color options below)

• Determine locking system. Use either; N for No locking system, L for standard locking system. Add the locking system digit as a suffix to the part number

HOUSING SELECTION

To build a custom designed Modular Drawer Cabinet the development of a housing item number and drawer items numbers are necessary. The next four pages will guide you through this process.

HOUSING

When developing a housing item number, the number must contain the following in order; color, drawer access, cabinet height, cabinet width, cabinet depth, housing options, and locking system.

Note: For a complete housing item number it must consist of 14 digits.

STEP 1 - COLOR

Determine the housing color from the color selection to the right. Begin the item number development with the two digits from the selected color.

Example - DD _ _ _ _ _

STEP 2 - DRAWER ACCESS

Determine drawer access from the selection to the right. Continue with the item number development by using either; S for Single Drawer Access, M for Multiple Drawer Access, or N for neither.

Example - DDM _ _ _ _ _

Single Drawer Access

Automatically locks unopened drawers when one drawer is pulled out. Single Drawer Access requires proper anchoring/connecting. Hardware for anchoring/connecting is furnished in each cabinet

Multiple Drawer Access

Provides access to multiple drawers, and is an economical alternative, but requires proper anchoring/connecting. Hardware for anchoring/connecting is furnished in each cabinet

STEP 3 - CABINET HEIGHT

Determine the cabinet height from the selection to the right. Add this selection to the developing item number.

Example - DDM35 _ _ _ _ _

STEP 4 - CABINET WIDTH

Determine the cabinet width from the selection to the right. Add this selection to the developing item number.

Example - DDM3530 _ _ _ _ _

STEP 5 - CABINET DEPTH

Include cabinet depth in the developing item number by adding 30. All cabinets are 28-1/4" deep.

Example - DDM353030 _ _ _ _ _

STEP 6 - CABINET BASE

Determine base requirement. Use either a B to include a base at the bottom of the cabinet or a N for no base. Note: always choose a base except for mobile or overhead units.

Example - DDM353030B _ _ _ _ _

STEP 7 - CABINET STACKING HOLES

Contact Lyon customer service if stacking holes are needed. If holes are not necessary, use N, for no stacking holes.

Example - DDM353030BN _ _ _ _ _

STEP 8 - CABINET HOUSING REINFORCEMENT

Contact Lyon customer service if housing reinforcements are needed. If reinforcements are not necessary, use N, for no housing reinforcement.

Example - DDM353030BNN _ _ _ _ _

STEP 9 - CABINET DOORS

Contact Lyon customer service if a cabinet door is needed. If a door is not necessary, use N, for a no cabinet door.

Example - DDM353030BNNN _ _ _ _ _

STEP 10 - CABINET LOCK

Use either; N for No lock, L for standard lock, or 1 for keyed alike.

Example - DDM353030BNNNL

Note: For a complete housing item number it must consist of 14 digits comparable to the example above.

DRAWER SELECTION

DRAWER

When developing a drawer item number, the number must contain the following in order; color, drawer access, drawer height, drawer width, drawer depth, latch-in/latch-out, locking system, and layout kits.

Note: For a complete drawer item number it must consist of 14 digits

DRAWERS IN HOUSING

When submitting an order for a custom Modular Drawer Cabinet, item numbers for drawers must be arranged from the top down.

STEP 1 - COLOR

Determine the drawer color from the color selection to the right. Begin the item number development with the two digits from the selected color.

Example - DD _ _ _ _ _

AA	BB	DD	HH	JJ	KK	PP
Ash	Wedgewood Blue	Dove Gray	Red Baron	Hunter Green	Vulcan Black	Putty

STEP 2 - DRAWER ACCESS

Continue with the item number development by using the same drawer access digit that was selected in the housing selection phase.

Example - DDM _ _ _ _ _

Single Drawer Access

Automatically locks unopened drawers when one drawer is pulled out. Single Drawer Access requires proper anchoring/connecting. Hardware for anchoring/connecting is furnished in each cabinet

Multiple Drawer Access

Provides access to multiple drawers, and is an economical alternative, but requires proper anchoring/connecting. Hardware for anchoring/connecting is furnished in each cabinet

STEP 3 - DRAWER HEIGHT

Determine the drawer height from the selection to the right. Decide the drawer height by measuring the height of the products being stored. Add this selection to the developing item number. *Note: The total of the drawer numbers must add up to the housing number.*

Example - D DM05 _____

STEP 4 - DRAWER WIDTH

Include the same drawer width digits in the item number that were selected in the housing selection.

Example - D DM0530 _____

STEP 5 - DRAWER DEPTH

Include drawer depth in the developing item number by adding 30. All drawers are 28-1/4" deep.

Example - D DM053030 _____

STEP 6 - LATCH-IN/LATCH-OUT

Determine if a Latch-in/Latch-out mechanism is desired. Use either; **N** for No, and **L** for Yes.

Example - D DM053030N _____

STEP 7 - INDIVIDUAL DRAWER LOCKS

Determine locking system. Use either; **N** for No locking system, **L** for standard locking system, or **1** for keyed alike.

Example - D DM053030NN _____

STEP 8 - LAYOUT KIT

Determine if a layout kit is desired. If no layout kit is needed, use **00** for No. If a layout kit is desired, choose from layout kits on pages 16-17, 23, 26, 30-31, 34-35. Add the digits from the selected layout kit.

Example - D DM053030NN0C _____

STEP 9 - LAYOUT KIT INSTALLED

Select the layout kit installation. Use either; **I** for Installed Kit, **K** for Kitted Kits, or **0** for No Kits.

Example - D DM053030NN0CI

Note: For a complete drawer item number it must consist of 14 digits comparable to the example above.

WORKBENCH ACCESSORIES

MODULAR STORAGE SYSTEMS THAT PROVIDE FLEXIBILITY with a custom building block approach to storage that maximizes use of cubic space. Tackle your storage project by first determining your size requirement. Then work your way through the accessories and configure a workbench that is custom built for your space requirements.

Color Selection Determine which color you need and add the two letter ■ digits as a prefix to part numbers.

Modular Drawer Cabinets

Choose from any Standard Pre-Engineered Cabinet (pages 7-15) or Slender Pre-Engineered Cabinet (pages 18-22) or create your own custom cabinet (pages 40-43).

Note: Consider cabinets with Multiple Drawer Access (M) locking, since tipping is highly unlikely.

LIMITED LIFETIME WARRANTY FOR MODULAR DRAWER CABINETS

Lyon warrants, only to the original purchaser, that its Modular Drawer Cabinets will remain free of defects in materials and workmanship for as long as the original purchaser retains ownership, possession, and control of the product when used in accordance with Lyon's specifications, operating instructions, and/or maintenance procedure. Warranty specifically excludes consequential, incidental, or other damages directly or indirectly resulting from failure or loss of used of, or by Lyon products.

LIMITATIONS

1. The original purchaser must provide Lyon in writing the date of purchase, the original invoice number, and a description of the defect, prior to returning any product under a warranty claim.
2. Products purchased by Lyon such as casters, work surfaces, and bench tops carry their manufacturer's warranty.
3. If the product was damaged in transit, the original purchaser must file a claim with the carrier within five days of delivery. This is not considered a warranty claim.

Lyon will not be responsible for charges of any repairs or alterations of the product unless made with Lyon's prior written consent. Routine replacement items such as all parts that are replaced due to wear, misuse or abuse or etc. are not covered by this warranty. Warranty claims, which result from customer errors, failure to follow safe operational procedures or inadequate maintenance will not be accepted. Lyon will not be responsible for damage due to explosion, fire, wind, flood, intentional abuse, normal wear and tear or use beyond the designed capacity of the product. Freight, labor or service charges for removal of defective parts and installation of replacement parts are not included.

Buyer shall pay freight charges on the returned components covered under this warranty. Under any and all circumstances, the remaining warranty disclaimer and limitation of liability shall remain in effect. Any returned products must be handled via a return authorization from Lyon, or they will be refused.
